PROFESSIONAL SUMMARY

Backend-focused Full Stack Developer with **3+ years of experience** building production web applications and **SaaS/ERP products** using **Node.js, TypeScript, React, PostgreSQL, and REST APIs**. Strong in **backend architecture, relational database design, RBAC, webhook and third-party integrations**, and end-to-end feature delivery. Currently a **Full Stack Developer at Serviots, taking technical ownership of ServiRx**, with responsibilities including feature scoping, implementation planning, PR reviews, delegation, and delivery coordination.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL

Backend: Node.js, Express.js, REST APIs, Prisma

Frontend: React.js, Ant Design, SCSS, Tailwind CSS

Databases: PostgreSQL, MongoDB, Redis

Cloud & Integrations: AWS S3, Razorpay, MSG91, WhatsApp APIs, Webhooks

Architecture & Security: Layered Architecture, RBAC, Authentication, Authorization, JWT, Input Validation

Tools: Git, GitHub, Bitbucket, JIRA, Agile/Scrum

PROFESSIONAL EXPERIENCE

Full Stack Developer | Serviots, Ahmedabad | Jul 2025 – Present

- **Took technical ownership of ServiRx**, scoping features with the core team, estimating timelines, delegating minor work, reviewing PRs, and implementing major backend-heavy features.
- Designed APIs and **backend architecture across 15+ major pharmacy ERP modules** including sales, purchase, inventory, reports, staff, roles, settings, shortbook, dashboard, and subscriptions. Designed
- **PostgreSQL/Prisma schemas** for batch inventory, GST, margins, purchase returns, customer payments, subscriptions, and reporting workflows.
- Built **dynamic RBAC** with module/action permissions, route-level middleware, custom roles, plan-based feature gating, and field-level inventory permissions across **20+ route files**.
- Built medicine-service integration supporting **1L+ records** and **20+ reporting APIs**; contributed to the **July 2026 production launch** of ServiRx, now serving approximately **15–20 pharmacies**.

Associate Software Developer | TatvaSoft, Ahmedabad | Jul 2023 – Jun 2025

- Developed **2+ full-stack web applications** using Node.js in Agile environments, serving over **10,000+ users** with high reliability.
- Designed and implemented **30+ secure, scalable RESTful APIs** with authentication and role-based access control, **improving system security by 40%**.
- Managed database operations using **PostgreSQL and MongoDB**, efficiently handling over **1M+ records** while ensuring data integrity and performance.
- Collaborated with cross-functional teams using Git, Bitbucket, and JIRA, demonstrating **strong teamwork and project collaboration**.

EDUCATION

Bachelor of Technology in Computer Engineering | L.J. Institute of Engineering and Technology, 2023

CGPA: 9.23
